

CHELCO Surge Protection

WHAT IS SURGE PROTECTION?

Surge protection helps prevent damage caused by power surges, or abrupt increases in power. Many things can cause a power surge, but lightning is the most common culprit.

HOW DOES THE SURGE PROTECTION PROGRAM WORK?

Our surge protector is a meter-based unit, which we install behind your meter. It is designed to protect motor-driven appliances such as your washer and dryer. The leased unit is \$6.95 per month with a one-time \$25 evaluation fee.

DOES SURGE PROTECTION KEEP MY SMALLER ELECTRONICS SAFE?

For items with sensitive electronics such as your computer and television, you need additional protection at the point of use. We offer quality point-of-use, or plug-in protectors, at affordable prices.

WHAT POINT-OF-USE SURGE PROTECTORS DOES CHELCO OFFER?

CHELCO offers four point-of-use surge protectors for our members:

CSS 1: Protects microwaves, garage door openers, or any 120-volt electronics. **(\$11.94+tax)**

CSS 1T: Protects from harmful surges, spikes and line noise. Perfect for telephones, fax machines, modems or laptops. **(\$15.30+tax)**

US1206: Protect all your sensitive electronics with six swiveling outlets, twin coaxial and telephone modules. **(\$71.40+tax)**

PM8AV: Protects anything from entertainment centers to computers. It has triple coaxial protection as well as phone line protection and modules to protect cable TV, satellite and modems. **(\$71.40+tax)**

**Other point-of-use surge protectors may be available.*

Call **(850) 892-2111** if you are interested in joining our surge program.
